PROPOSAL

A group care facility, with a maximum of three (3) elderly adults who receive full-time care, is proposed within the applicant's home.

GROUP CARE FACILITY

"Group care facilities" are first permitted by-right in a Neighborhood Office (O-1) District and require a conditional use in an Agricultural (A) District.

The Zoning Ordinance provides for an alternative designation for the care of elderly adults known as a "residential care home". A "group care facility" and a "residential care home" are defined by the Ordinance with the following requirements:

	Group Care Facility (Conditional Use)	Residential Care Home (By-right)
Type of Individuals Receiving Care	Adult and/or child caring institution or facility, provide residential services to: <ul style="list-style-type: none"> individuals requiring rehabilitation or personal services because they are physically handicapped, mentally ill, mentally retarded, developmentally disabled, aged, infirm, chronically ill, incurably afflicted, children in need of services or children separated from their parents or guardian <i>Definition in Attachment 2</i>	Adult and/or child caring home, provide residential services to: <ul style="list-style-type: none"> individuals who are mentally ill, mentally retarded, or developmentally disabled individuals who are aged, infirmed or disabled <i>Definition in Attachment 2</i>
License from State?	License from State not required by County definition ¹	Licensed by Virginia State Department of Behavioral Health and Developmental Services or Department of Social Services (DSS) required by County definition
Limit on the Number of Individuals Receiving Care	No limit	Limit of 8 individuals receiving care in a home
¹ A license to care for four (4) or more individuals in any facility is required by DSS.		

The major distinction between a “group care facility” and a “residential care home” is the licensure of the facility and the number of individuals under the care of the caregiver. A license to care for four (4) or more individuals in a home setting is required by DSS. The applicant’s request could be classified as a residential care home if the applicant obtained a voluntary license from DSS. The applicant has indicated that she does not want to pursue a voluntary license from DSS.

The following provides an overview of the proffered conditions offered by the applicant to assist in mitigating the impact of the use on area properties:

General Overview	
Requirements	Details
Non-Transferable Ownership	Use limited to applicant only <i>Proffered Condition 1</i>
Number of Adults Receiving Care	Maximum of three (3), who are a minimum of 62 years old <i>Proffered Condition 2</i>
Limitation on Size	No exterior additions or alterations to existing structure <i>Proffered Condition 3</i>
Signage	One (1) sign, limited to : <ul style="list-style-type: none"> • 4 square feet in area • 3 feet in height <i>Proffered Condition 4</i>
Time Limitation	Three (3) years <i>Proffered Condition 5</i>
Employees	One (1) employee permitted, other than family member employees who reside on the premises <i>Proffered Condition 6</i>

While the proffered conditions would minimize the intensity of the use and maintain the residential character of the property, the operation of group care facility is inconsistent with the existing and anticipated residential land uses around the request property. Finally, an alternative exists for the applicant to obtain a voluntary license from DSS to become classified as a residential care home by the Ordinance, which is a permitted use by-right.
